General Assembly
Seventy-ninth session
Agenda item 40
Question of Cyprus

Security Council
Eightieth year

Letter dated 30 June 2025 from the Permanent Representative of Cyprus to the United Nations addressed to the Secretary-General

Upon instructions from my Government, I transmit herewith 12 separate annexes recording the violations of Cyprus' national airspace, of international air traffic regulations in Cyprus' flight information region, of the territorial waters of Cyprus and the illegal use of closed ports and airports in Cyprus, by the air and naval forces of Türkiye, from July to December 2024.

A total of 989 air and 45 naval violations were observed during this period. It should be noted that 264 of the 989 air violations were related to the use of Turkish military uncrewed aerial vehicles. Furthermore, Türkiye carried out military exercises which violated the Republic of Cyprus' airspace, for which it illegally issued 5 notices to airmen and 12 navigational texts.

These actions constitute a violation of the sovereignty, independence and territorial integrity of Cyprus, and consequently of the Charter of the United Nations. They further undermine regional stability, peace and the prospects for a just and lasting settlement of the Cyprus issue within the framework of the Security Council resolutions.

Constant violations to the military status quo on the island and near-daily advances into the buffer zone, coupled with the continuous upgrading of military infrastructure in the already densely militarized occupied areas, constitute but a fragment of Türkiye's persistently aggressive behaviour in Cyprus. The numerous instances of military violations and moves forward by the Turkish occupation forces, aim to create new faits accomplis on the ground, while severely impacting the sense of security of the civilian population. Such actions are revealing of Ankara's intentions in perpetuating its occupation and entail grave risks not only for Cyprus' security, sovereignty and territorial integrity, but also for the security and stability of our already troubled region.

Türkiye's continuous violation of the Charter of the United Nations demonstrates its blatant contempt for international law. This is particularly evident in the case of Varosha, where the unlawful transformation of the fenced area continues unabated, despite the clear call by the Security Council (see [S/PRST/2021/13](#)) to the Turkish side to stop and reverse the violations of the status quo and in total disregard of Security Council resolution [550 \(1984\)](#), in which the Council calls for the return

of Varosha to its lawful inhabitants and the transfer of the area to the administration of the United Nations.

The continuing illegal occupation of Cyprus and the tragic consequences it has created for our island and its people lie at the heart of today's unacceptable and unsustainable status quo that we are called upon to overcome. Instead, as the invader and occupying power, Türkiye is stepping up its efforts to impose a "two-State solution" on the island. Following an a la carte approach to Security Council resolutions, Türkiye chooses to brand these as obsolete when they do not fit its discourse and calls on the international community to "face the realities on the ground" in an attempt to convince it that the result of its aggression is a valid legal effect.

In the current global geopolitical context, it is imperative for the United Nations to demonstrate that there are no double standards in the application of the Charter. The sovereignty and territorial integrity of States under attack must be defended, no matter where the attacks are coming from or how much time has passed. In the case of Cyprus, where the problem remains one of military invasion and continued illegal occupation, of unceasing violations of human rights and international legality, violations of the Charter and Security Council resolutions have disturbingly become the norm. Selective adherence to the Charter risks undermining the very framework upon which our collective peace and security rest. The Charter's principles are binding on all Member States – for if exceptions are permitted for one, the legitimacy of the entire system is called into question. This is precisely why the Security Council must stand behind its own resolutions and ensure they have meaning; otherwise, the credibility of the international system and the rules-based international order that the United Nations seeks to protect, are severely eroded.

We are currently navigating a sensitive period, where diplomatic engagement is underway with the aim of creating the conditions for the return to formal negotiations. The reappointment of María Angela Holguín Cuéllar as your Personal Envoy has provided renewed impetus towards this goal, including through advancing the implementation of the confidence-building measures agreed between the leaders under your guidance. Unfortunately, this effort continues to be undermined by the insistence of the Turkish side on positions that fall squarely outside the established United Nations parameters regarding the solution of the Cyprus problem. At the same time, this unacceptable stance is being increasingly manifested in provocative actions on the ground in Cyprus, as well as through the intensified efforts to promote the international upgrading of the secessionist entity. For negotiations to resume in good faith, it is essential that Türkiye respects the sovereignty and territorial integrity of Cyprus and refrains from any further unlawful actions.

The Republic of Cyprus remains firmly committed to a peaceful resolution of the Cyprus issue, in accordance with the United Nations-endorsed basis of a bizonal, bicomunal federation with political equality as set out in Security Council resolutions, despite the stumbling blocks placed before us by Türkiye and its subordinate local administration. This agreed framework constitutes the only viable way forward in the effort to solve the Cyprus problem and, in this respect, the Government of the Republic of Cyprus is intent on exerting every possible effort in cooperation with you and your Personal Envoy to create the conditions for a return to formal negotiations, with the aim of reunifying Cyprus and its people.

I should be grateful if you would circulate the present letter and its annexes as a document of the General Assembly, under agenda item 40, and of the Security Council.

(Signed) Maria **Michail**
